Terramac® Grows Representation with SMS Equipment in Alaska

Elburn, IL – Terramac, a leading manufacturer of innovative rubber track crawler carriers, grows its representation in North America with SMS Equipment’s operation in Alaska.

Since becoming the first authorized Terramac dealer for Canada in 2014, SMS Equipment has continuously provided professional sales and service on Terramac crawler carriers across more than 35 branches. This enhanced contract includes SMS Equipment’s single U.S. branch, located in Anchorage, Alaska.

“The territory expansion with Terramac reflects our commitment to meeting our customers’ heavy equipment sales, parts and service needs,” says Garry Phenuff, Terramac Group Manager at SMS Equipment. “There is a strong demand for crawler carriers in Alaska. Terramac’s advanced track technology allows the units to effortlessly tackle ice road hauling, trail building and powerline work in the mountains with minimal ground impact. Terramac crawler carriers also boast customization options for various applications and eliminate the need for additional equipment on the job.”

SMS Equipment offers Terramac crawler carriers to serve a wide range of industries including construction, drilling, mining, forestry and utility. In addition to the standard Terramac RT6, RT9, RT14, and RT14R units, SMS Equipment provides industry-specific attachment rentals such as water tanks, knuckle boom cranes, personnel carriers and hydroseeding units. Terramac and SMS Equipment also offer a variety of in-stock parts that are available for quick delivery to minimize downtime.

“SMS Equipment is well-known for delivering superior sales and customer support to their loyal customer base throughout Canada,” says Matt Slater, Vice President of Sales and Marketing at

Terramac. “We’re excited to grow our partnership with SMS Equipment as our first dealer to represent the Terramac product line in Alaska and look forward to continued success.”

SMS Equipment is a leading heavy equipment distributor that strives to deliver a diverse range of industrial machinery to fulfill each customer's unique application requirements. SMS Equipment serves the construction, forestry, mining and utility industries with more than 35 full-service locations in Canada and 1 full-service location in Alaska. For more information on SMS Equipment or to view branch locations, please visit smsequip.com.

Terramac® LLC, based in Elburn, IL, was established to produce the world’s leading crawler carriers. Units are sold through a full dealer network which offers customers easy-to-locate parts and service throughout the world. The units can be customized with support equipment to serve many industries such as pipeline, utility, mining, environmental, general construction and more.
