For Immediate Release

Terramac® Appoints McCoy Construction & Forestry as Authorized Dealer

Elburn, IL – Terramac, a leading manufacturer of innovative rubber track crawler carriers, expands its representation in the North American market to include McCoy Construction & Forestry (MCF) as part of its dealer network. MCF will represent the versatile Terramac product line in Iowa, Wisconsin, and Minnesota.

“At McCoy Construction & Forestry, we are committed to providing customers with innovative, top-notch equipment to get the job done safely and efficiently,” says Jeff Herkert, President of McCoy Construction & Forestry. “Terramac is a natural fit with our current equipment offerings; the units deliver unmatched quality and extreme versatility, while the industry leadership and expertise of their team is superior. We’re excited to offer such value to our customers and we’re confident Terramac’s product line will be well-received.”

MCF will offer the Terramac RT6, RT9, RT14 and RT14R crawler carriers to serve the construction, forestry, pipeline and environmental industries. In addition to Terramac’s three standard options – conversion beds, rock dump beds and flatbeds – MCF will offer Terramac units customized with support attachments such as hydroseeding units, weld decks, and cranes.

“The addition of Terramac’s versatile product line not only allows us to grow within the current industries we serve, but it also opens the door to new opportunities. With the units’ unlimited customization capabilities, we plan to expand in other markets including concrete, utility and landfill management,” says Herkert.

The team at MCF will provide professional sales, rental and aftermarket support on the Terramac product line across seven branch locations. MCF's dependable representatives will deliver timely service, and their factory-trained technicians and certified parts advisors are equipped with state-of-the-art technology to ensure Terramac machines are maintained at the highest standard.

"McCoy Construction & Forestry is a high-caliber dealership with a reputation for delivering total customer satisfaction," says Jesse Whittaker, Director of Business Development at Terramac. "We are pleased to have them join our growing dealer network and we look forward to a strong and successful partnership."

McCoy Construction & Forestry is a subsidiary of McCoy Group, a leading commercial trucking and transportation provider in North America. Headquartered in Dubuque, IA and family-owned and operated for 62 years, the McCoy Group family of companies also includes Truck Country, Stoops Freightliner, Foodliner, Quest Liner and McCoy National Lease.

McCoy Construction & Forestry offers Terramac crawler carriers for sale or rent as well as full-service maintenance and parts. For more information on McCoy Construction & Forestry or to find the nearest location, please visit McCoyCF.com.

Terramac® LLC, based in Elburn, IL, was established to produce the world's leading crawler carriers. Units are sold through a full dealer network which offers customers easy-to-locate parts and service throughout the world. The units can be customized with support equipment to serve many industries such as pipeline, utility, mining, environmental, general construction and more.
