## TERRAMAC® NAMES BUCKHURST PLANT HIRE AS FIRST INTERNATIONAL DISTRIBUTOR

**ELBURN, Ill. (Sept. 26, 2013)** — [Terramac® LLC](#), a manufacturer of innovative rubber track crawler carriers, has named [Buckhurst Plant Hire](#), Lancashire, United Kingdom, as its first international distributor. Founded in 1993, Buckhurst Plant Hire operates several depots throughout the United Kingdom, with more than 1,600 pieces of equipment. By providing Terramac with a pivotal route to market its [RT9 rubber track crawler carrier](#) in the United Kingdom, this partnership represents a key step in the company's goal to become the global leader in crawler carrier sales and marketing.

“We are pleased to add Buckhurst Plant Hire to our distribution network and we look forward to working together to meet the growing demand for rubber track crawler carriers from customers in the UK,” said Mike Crimaldi, CEO of Terramac LLC. “Buckhurst Plant Hire supports its efforts with well-established marketing, strong customer service and a solid sales team, and they have an outstanding reputation for providing the highest quality equipment to their customers.”

“We are delighted to be partnering with a leading manufacturer like Terramac and are looking forward to a long-lasting, beneficial relationship,” said John Walsh, director, Buckhurst Plant Hire. “Terramac’s world-class quality craftsmanship brings us a greater scope of business. The addition of the Terramac RT9 crawler carrier to our portfolio will help us achieve our goal of being the customers’ first choice for the very latest equipment.”

(more)

In addition to Buckhurst Plant Hire, Terramac's distribution network currently includes [Rig Source Inc.](#), the company's primary dealer in North America. Rig Source offers custom fabrication and mounting services to install a wide range of equipment and attachments on the Terramac RT9 rubber track crawler carrier.

With an operating weight of 26,000 pounds (11,794 kg) and a maximum carrying capacity of 18,000 pounds (8,165 kg), the Terramac RT9 is the largest mid-sized rubber track carrier that does not require special oversize permitting to transport the machine. Equipped with front and rear bolt-on connections, this multi-purpose carrier can accommodate various types of specialized equipment for the job at hand.

Available for sale or rent, the RT9 can be ordered from the factory with the correct body configuration to accept custom accessories. For more information on the Terramac RT9, or to schedule a demonstration, please visit [www.terramac.com](http://www.terramac.com).
