## TERRAMAC® NAMES MCCLUNG-LOGAN AS DEALER

**ELBURN, Ill. (July 2, 2014)** — [Terramac® LLC](#), a manufacturer of innovative rubber track crawler carriers, has announced [McClung-Logan Equipment Company](#) as the authorized dealer in Maryland, Virginia, Delaware and Washington, D.C., and [McClung-Logan Crane & Equipment](#) as the authorized dealer in North and South Carolina. McClung-Logan will provide equipment sales, rentals, applications expertise and parts and service support for the Terramac [RT9 rubber track crawler carrier](#) throughout its territory.

“We are pleased to welcome McClung-Logan as our newest Terramac equipment dealer to help meet the demand for rubber track crawler carriers from customers throughout the Mid-Atlantic region of the United States,” said Mike Crimaldi, CEO of Terramac LLC.

“We are selective when choosing a manufacturer with which to align, so we are thrilled to be partnering with a leading equipment brand like Terramac,” said Ben Cockerham, vice president of operations for McClung-Logan Crane & Equipment. “The RT9 crawler carrier provides us with a tremendous opportunity to broaden our relationships in the equipment industry.”

(more)

With an operating weight of 26,000 pounds (11,794 kg) and a maximum carrying capacity of 18,000 pounds (8,165 kg), the Terramac RT9 is the largest mid-sized rubber track carrier that does not require special oversize permitting to transport the machine. Equipped with front and rear bolt-on connections, this multi-purpose carrier can accommodate various types of specialized equipment for the job at hand.

Available for sale or rent, the Terramac RT9 crawler carrier can be ordered from the factory with the correct body configuration to accept custom accessories. For more information on the Terramac RT9, or to schedule a demonstration, please visit [www.terramac.com](http://www.terramac.com).

### **About McClung-Logan Equipment Company**
