*For Immediate Release*

### **Terramac® Plans for an Exciting Exhibit at ICUEE 2015**

*Elburn, IL* – Terramac, a leading manufacturer of innovative rubber track crawler carriers, is preparing for an exciting ICUEE 2015 exhibit in booth N-2030.

Terramac will be unveiling its larger and more powerful crawler carrier at ICUEE. Built entirely of premium components, the new unit offers the highest torque in its class and can accommodate taller aerial lifting devices and 55% more weight than the company's popular RT9 model. The RT9 will also be on display with the acclaimed Terex Digger Derrick attachment.

In addition to its product launch, Terramac plans to raise funds at ICUEE for the Pat Tillman Foundation (PTF), an organization established in the name of NFL player Pat Tillman. To do so, Terramac has designed an in-booth fishing game called "Casting for a Cause." Participants will have the opportunity to test their casting skills with the objective of landing a lure into ponds of different dollar amounts. Terramac will donate the amount raised to PTF in an effort to support the organization's mission of providing educational scholarships for military veterans and their spouses.

As a special tie-in to the PTF "Casting for a Cause" fundraiser, Terramac has invited celebrity fisherman and 9-time B.A.S.S. Angler of the Year, Roland Martin, to spend the day at the Terramac booth on Wednesday, September 30<sup>th</sup>. Martin will be sharing casting tips and stories with attendees at 10:00 am, 1:00 pm and 3:00 pm and will be available for autographs and pictures throughout the day.

Terramac® LLC, based in Elburn, IL, was established to produce the world's leading crawler carrier. Units are sold through a full dealer network which offers customers easy-to-locate parts and service throughout the world. The units can be customized with support equipment to serve many

industries such as pipeline, utility, mining, environmental, general construction and more. To learn more, please visit [www.terramac.com](http://www.terramac.com) or call 630-365-4800.
